

GlobalSearch vs. secure file sync & share services

Empower your employees to be productive, collaborative & secure no matter their location.

GlobalSearch® is ideal for businesses both large and small with a remote workforce looking to manage their documents. Other products like Google Drive and Microsoft OneDrive offer functional and valuable tools for businesses, but they miss the mark when compared to a true document centric solution such as GlobalSearch. Compare for yourself:

	 Square 9 GlobalSearch	 Google Drive	 Microsoft OneDrive
Provides storage for multiple documents	✓	✓	✓
Supports structured filing and searching so files can be located in seconds by anyone	✓		
Allows for custom searches to meet the needs of specific users or business procedures	✓		
Includes rule-based workflows, tasks, and notifications to keep current manual processes consistent when moved digitally and accessed remotely	✓		
Provides the ability to sign documents (Also integrates with DocuSign*)	✓		
Includes scalable user licensing allowing you to pay only for the users you need	✓		
Delivers robust security that manages users and their actions	✓		
Integrates with your most used programs including QuickBooks®, Microsoft Office 365™, Salesforce®	✓
